SUMMARY

In 1990 Maine had a fall enrollment of 210,200 enrolled in 719 public schools *(591 elementary, 92 secondary and 36 combined elementary and secondary)*. This count does not include vocational centers or regions, although some of the 210,200 students also attend vocational centers or regions. These students were taught by 14,733 teachers. A total of 12,850 students were enrolled in 95 private schools *(58 elementary, 22 secondary and 15 combined elementary and secondary)*. These students were taught by 966 teachers.

Maine's 494 towns and cities are now divided into 73 school administrative districts with 275 towns, 39 cities and towns under individual supervision, 25 towns under district superintendents and agents of the commissioner, 13 community school districts with 39 towns, leaving 112 towns in 35 unions.

The cost of public education continues to rise. The cost per pupil, excluding transportation, capital outlay and debt service, was $2,972 per elementary and $4,178 per secondary.

Much has been done to encourage young people to complete their secondary education and advance, into post-secondary education. Of the 14,359 high school graduates, *(12,759 public and 1,600 private)* in 1990, 58.1% of the public high school graduates and 83.5% of the private high school graduates continued their education--a combined percentage of 60.9%. Approximately 60.0% of these are continuing their education in Maine institutions.

Of the public secondary schools, 128 reported with 64,526 total enrollment, there were 2,136 dropouts which gave Maine a 3.31% dropout rate for the 1990-91 school year.

Included in this issue of "Maine Educational Facts" is a compilation of most of the reports printed by the Division of Management Information. The information is compiled from the following reports:

FALL SCHOOL STATISTICAL REPORT (EF-M-40)

This report collects total enrollment by school as of October 1. Also what type of school, such as elementary; secondary; senior high; or elementary-secondary combined, etc. In addition, last year's graduates and number of graduates who intend to or are enrolled full/part time in post-secondary education are collected.

RESIDENT ENROLLMENT REPORT (EF-M-11/13)

This report is submitted by each local educational unit as of October 1. The report includes all students educated within the school system.

REPORT OF PUBLIC/SELECT PROVATE SCHOOLS SYSTEM (EF-M-35)

This report is as of the last day of school. It provides statistics for pupils attending schools operated by the administrative unit to include net registration, average daily attendance, aggregate attendance, aggregate membership, average daily membership, dropouts, expulsions, retentions and number of pupils conveyed at public expense. Also included is information on number of schools discontinued during or at the close of the school year.

YEAR-END REPORT OF PRIVATE SECONDARY SCHOOLS (EF-M-240)

This report provides statistical information from private secondary schools. These schools are required to report pupil registration and attendance data at the close of school each year. These reports are filled in by school administrators, public and private, and are audited and verified as much as possible. These figures are primarily statewide, with the exception of selected data which is provided on a county level or school administrative unit level detail.

DISTRIBUTION

OF

LOCAL EDUCATIONAL AGENCIES IN MAINE

FALL 1990

CITIES OR TOWNS WITH INDIVIDUAL SUPERVISION
(39 Systems with 39 Towns)

A city or town with individual school supervision is a single municipality of comparatively large size for Maine (generally 75 or more teachers). A school committee administers the education of all grades in the city or town through a superintendent of schools. The city or town charter usually determines the method of budget approval. In many cities and towns, the City Council or Town Council has final budget approval. Since it is a single municipality, cost sharing is not a factor.

SCHOOL ADMINISTRATIVE DISTRICTS
(73 Systems with 275 Towns)

A school administrative district (S.A.D.) is a combination of two or more municipalities who pool all their educational resources to educate all students. One school committee (comprised of representatives from each of the municipalities) administers the education of grades K-12 through a superintendent of schools. Budget approval is by majority vote of those present and voting at a district budget meeting. The member municipalities share the S.A.D. costs based on a formula which includes state valuation and/or number of pupils.

COMMUNITY SCHOOL DISTRICTS
(13 Systems with 39 towns)

A community school district (C.S.D.) is a combination of two or more municipalities formed to build, maintain, and operate a school building or buildings to educate any or all grades. For example, a C.S.D. may be formed to build and operate a grade 7-12 school for all towns in the C.S.D. These same towns will maintain individual control (or belong to a union) for the education of their K-6 students. A community school district may also include education of all grades K-12.

The C.S.D. school committee is comprised of members of each town's local school committee if one exists. C.S.D. school committees are apportioned according to the one person-one vote principle. The member municipalities share the S.A.D. costs, based on a formula including number of pupils in each town and/or state valuation or any combination of each. Community School District budgets are approved by majority vote of voters present and voting at a district budget meeting.

UNIONS OF TOWNS
(33 Systems with 112 Towns)

A Union is a combination of two or more school administrative units joined together for the purpose of sharing the costs of a superintendent and the superintendent's office. Each member school administrative unit maintains its own budget, has its own school board, and operated in every way as a separate unit except for the sharing of superintendent services.

In addition, a union school committee exists, comprised of representatives of each member unit school committee and conducts the business of the union. All votes of the union committee are cast on a weighted basis in proportion to the population of the towns involved.

MAINE INDIAN EDUCATION
(1 System, 3 Reservations)

There are three reservations of Indian children in Maine. These three reservations are organized exactly as a union of towns described above.

EDUCATION IN UNORGANIZED TERRITORIES
(7 Schools)

Education in unorganized territories (E.U.T.) in Maine is a responsibility of the State. The education of territory children is accomplished by the state operating schools which are in unorganized territories and by the assignment of agent superintendents to assure that each child in an unorganized territory receives education. These agents are assigned by the Commissioner of Education through the Division of School Operations.

UNITS UNDER DISTRICT SUPERINTENDENTS AND AGENTS OF THE COMMISSIONER
(25 Systems, 25 Towns)

A unit assigned to a district superintendent or an agent of the commissioner, generally is a relatively small unit requiring less than full-time administration. Units under district superintendents procure services of superintendents on their own by negotiating with a nearby superintendent and school board. Agents are appointed by the commissioner on a temporary basis if the local unit is unable to locate a superintendent on its own.

UNITS THAT DO NOT OPERATE SCHOOLS

There are 53 school administrative units in Maine that do not operate schools, but tuition all students to surrounding school systems. These tuitioning school administrative units are described below.

All these units must have a school board and a superintendent. However, the superintendent is usually a school agent appointed by the commissioner, or the school unit is a member of a union.

* These figures do not include vocational centers & regions.

** A school is a unit headed by a principal and providing graded instruction.

*** A.D.M. (Average Daily Membership) is as of June 30, 1990.

**** EDUCATION IN UNORGANIZED TERRITORIES: (not included in count above) 3 in Aroostook, 2 in Washington, 1 in Penobscot and 1 in Somerset counties.

ONE ROOM SCHOOLS IN MAINE

FALL 1990

At the close of school in 1949, Maine had a total of 676 one-room schools. Now 41 years later there are still eight one-room schools in operation. All but two of these schools are located on islands along the coast of Maine.

1989-90 NET ENROLLMENT

Net registration means a student not previously enrolled during the school year in any other school within or outside the state. Reporting net enrollment provides an unduplicated student count for the national statistical reports published by the Center for Education Statistics.

As reported on the Report of Public School Sytems (EF-M-35) for Year Ending June 30, 1990. The breakdown of Secondary Special Education and Post Graduates count have been separated as 1986. Prior to 1986 these counts were combined.

* Graduates: These are the students that completed the requirements for issuance of their diploma at the end of the school year only.

** Population and birth figures are acquired from the Office of Data Research and Vital Statistics, Maine Department of Human Services.

1989-90
AVERAGE DAILY ATTENDANCE (A.D.A.)

The average daily attendance is the aggregrate days of attendance divided by the number of days the schools is actually in session.

Elementary K-8	143,563.11
Secondary 9-12	51,526.16
TOTAL K-12	**195,089.27**

1989-90
AVERAGE DAILY MEMBERSHIP (A.D.M.)

The average daily membership for a school year is the aggregate number of pupils "belonging", whether present or absent, each day divided by the number of days the school is actually in session.

Elementary K-8	151,519.70
Secondary 9-12	55,514.21
TOTAL K-12	**207,033.91**

1989-1990
PUPILS CONVEYED

	Public	Private
NUMBER OF PUPILS CONVEYED:		
On Municipally-owned buses	132,525	1,170
On Private-owned buses	31,132	610
TOTAL	**163,657**	**1,780**

HIGH SCHOOL GRADUATES

STATISTICAL DATA

PUBLIC AND PRIVATE

1989 - 1990

Graduate information is for all students who graduated during the regular school year plus those receiving their diploma during the summer session.

1989 G. E. D. STATISTICAL REPORT

During 1988; 4,572 people took the General Equivalency Development (G.E.D.) exam. As a result of testing, 3,307 individuals received the High School Equivalency Certificate. Thus 72.3% of those taking the G.E.D. in Maine passed it, while the national rate is 68%.

Below is a summary of other data on 1989 G.E.D. graduates in the State of Maine compared with national figures:

PERCENT TESTED BY AGE GROUP

	Age 17	Age 18-19	Age 20-24	Age 25-29	Age 30-34	Age 35-39	Age 40-49	Age 50-59	Age 60 +	Average Age
Maine	7.6%	20.7%	16.8%	13.2%	10.5%	7.2%	9.2%	5.0%	2.0%	26.4%
